

CLAIMS

1. A paper liner for plastic grocery sacks, comprising:
a paper container having
a base whose perimeter is approximately equal to the base
perimeter of standard plastic grocery sacks; and
a height approximately equal to the height to the collar of
standard plastic sacks when said standard plastic
grocery sacks are opened and expanded.
2. A paper liner for plastic grocery sacks, according to Claim
1, wherein the paper container is made of a grade of paper of
lighter weight than that used for standard paper grocery sacks of
similar base perimeter.
3. A paper liner for plastic grocery sacks, according to Claim
1, wherein the base has dimensions of 12 inches by 7 inches and
the height is 12.5 inches.
4. A paper liner for plastic grocery sacks, according to Claim
1, wherein the base has dimensions of 12 inches by 7 inches and
the height is 10.5 inches.
5. A paper liner for plastic grocery sacks, according to Claim
1, wherein the base has dimensions of 11.5 inches by 6.5 inches
and the height is 12.5 inches.
6. A paper liner for plastic grocery sacks, according to Claim
1, wherein the base has dimensions of 13 inches by 8 inches and
the height is 13 inches.
7. A paper liner for plastic grocery sacks, according to Claim
2, wherein the grade of paper is between 35 lbs. and 50 lbs.

8. A paper liner for plastic grocery sacks, comprising:

a paper container having a base whose perimeter is

approximately equal to the base perimeter of standard plastic grocery sacks; and

said paper container is made of a grade of paper of lighter weight than that used for standard paper grocery sacks of similar base perimeter.

9. A paper liner for plastic grocery sacks, according to Claim 8, wherein the grade of paper between 35 lbs. and 50 lbs.

10. A paper liner for plastic grocery sacks, according to Claim 8, wherein the base has dimensions of 12 inches by 7 inches and the height is 14 inches and wherein the grade of paper is between 35 lbs. and 50 lbs.

11. A combination of a paper liner and a standard plastic grocery sack, comprising:

a standard plastic grocery sack; and

a paper container having a base whose perimeter is

approximately equal to the base perimeter of the standard plastic grocery sack positioned within the plastic grocery sack; and

said paper container is made of a grade of paper of lighter weight than that used for standard paper grocery sacks of similar base perimeter.
